EDUCATION

Rice University

B.S. Computer Science | 3.74 GPA

Houston, TX

Aug 2016 - Dec 2019

- **Awards:** Trustee Distinguished Scholarship & Walsh Engineering Scholarship Recipient, 2016 - 2020
- **Electives:** Database System Implementation (Graduate), Algorithmic Robotics, Database Systems, Distributed System Construction, Data Science, Web Development

EXPERIENCE

Tableau Software

Incoming Software Engineer

Seattle, WA

Feb 2020 - present

- Building products to help people see and understand their data

INTERNSHIPS

Tableau Software

Software Engineer Intern | *Object Model Team*

Seattle, WA

May 2019 - Aug 2019

- Worked in C++ on compilers and database query plans for the Tableau Calculation Language
- Designed a new, highly requested class of operators that reduces language verbosity by over 75%
- Utilized Visitor Pattern to extend the lexer, parser, type-checker, and query pipeline to support new syntax and merged feature to production for shipping in Tableau 2020.1

Tableau Software

Software Engineer Intern | *Tableau Prep Team*

Seattle, WA

May 2018 - Aug 2018

- Developed a general-purpose telemetry library that enables feedback gathering on UI components
- Built an API in Java to connect to BigQuery and designed React/TypeScript higher-order components
- Implemented many bug fixes that have been shipped in Tableau Prep 2018.1.2 and 2018.2.1

Quantum Reservoir Impact

Software Engineer Contractor | *Corporate Analytics Team*

Houston, TX

Aug 2017 - Apr 2018

- Assisted in the development of SpeedWise Portfolio Analysis (SPA), a new analytics web app
- Built REST API to query and aggregate data from MongoDB and GeoServer
- Used Leaflet in React to build mapping components that support spatial queries and dynamic styling

Quantum Reservoir Impact

Software Engineer Intern | *Corporate Analytics Team*

Houston, TX

May 2017 - Jul 2017

- Developed and deployed qDCA, a new visualization platform: qdca.qrigrp.com
- Built a React/Redux-based frontend in JavaScript for decline curve visualization that supports charting, filtering, sorting, and a SSR gridview to improve client performance

SKILLS

Languages: Java, C++, C, Python, JavaScript/TypeScript/ES6

Technologies: Node.js, React, Redux, MongoDB, SQL, Android SDK, Git, Unix systems
